

ARM BLOOD PRESSURE MONITOR

INTENDED USE:

The device is designed for non-invasive measurement of systolic and diastolic blood pressure and heart rate in adults using the oscillometric method.

Intended for adults. For home or clinical use.

PRODUCT CHARACTERISTICS:

- average of the last 3 measurements
- possibility to use an AC adapter (DC 6.0 V, 600 mA) instead of batteries
- has a WHO classification index
- low battery indicator
- auto power-off feature
- 36-month warranty

PACKAGE CONTENTS:

- measuring device
- cuff
- fabric pouch
- 1.5 V AAA battery x 4 pcs
- optional power adapter
- user manual

- 🌐 *Accurate measurement of blood pressure and heart rate*
- 🌐 *Memory for 120 measurements*
- 🌐 *Detects irregular heart rhythm, which is especially important for patients with heart arrhythmia*
- 🌐 *Large, easy to read LCD display*

- 🌐 *Easy to use*
- 🌐 *Quick and quiet measurement*
- 🌐 *Universal cuff size: M - L (22 - 42 cm in circumference)*

AUTOMATIC WRIST BLOOD PRESSURE MONITOR

INTENDED USE:

The device is designed for non-invasive measurement of systolic and diastolic blood pressure and heart rate in adults using the oscillometric method. For home or clinical use.

PRODUCT CHARACTERISTICS:

- digital error messages
- large LCD display
- auto power-off feature
- blood pressure result indicator
- memory for 120 measurements
- has a WHO classification index
- low battery indicator
- date/time
- 24-month warranty

PACKAGE CONTENTS:

- blood pressure monitor
- plastic case
- AAA type battery x 2 pcs
- user manual

 *Recommended for people with recurring hypertension, obese people who have trouble putting on an upper arm cuff, and also active people, and athletes*

 *Large, easy to read LCD display*

 *Modern design*

 *Practical storage case*

 *Memory for 120 measurements*

 *Low battery indicator*

 *Auto power-off feature*

 *Blood pressure classification acc. to WHO*

 *Perfect for both home and travel use*

PISTON COMPRESSOR NEBULIZER

INTENDED USE:

The device is intended for the administration of medicines and substances in the form of vapor, directly into the airways. Designed for use at home. It effectively helps to treat various types of allergies, asthma, bronchitis, coughs, rhinitis and other respiratory diseases. The product is suitable for users of all ages.

PRODUCT CHARACTERISTICS:

- the piston compressor nebulizer converts the medication in the nebulizer from a liquid to a vapour, making it easier to deliver the right dose of medication into the airways
- particle size in the range 0,5 μm – 5 μm
- easy to install, use and clean
- safe to use

PACKAGE CONTENTS:

- compressor
- face masks x 2 pcs (child and adult size)
- mouthpiece
- nebulizer (medication container)
- air tube
- filter
- user manual

 *It can be used by the whole family thanks to two mask sizes*

 *A convenient holder on the nebulizer prevents medicines from spilling*

 *Quiet operation for comfort of use*

 *Ergonomic design*

 *Quick and effective therapy*

 *Powerful piston compressor*

 *Nebulizer (medication container) with a convenient scale for applying medicine*

ELEPHANT PISTON COMPRESSOR NEBULIZER

INTENDED USE:

The device is intended for the administration of medicines and substances in the form of vapor, directly into the airways. Designed for use at home. It effectively helps to treat various types of allergies, asthma, bronchitis, coughs, rhinitis and other respiratory diseases. The product is suitable for users of all ages.

PRODUCT CHARACTERISTICS:

- the piston compressor nebulizer converts the medication in the nebulizer from a liquid to a vapour, making it easier to deliver the right dose of medication into the airways
- particle size in the range 0,5 μm - 10 μm
- safe to use
- latex free

PACKAGE CONTENTS:

- compressor
- face masks x 2 pcs (child and adult size)
- mouthpiece
- nebulizer (medication container)
- air tube
- filters x 5 pcs
- user manual

 **Quick and effective therapy**

 **The product has been designed with children in mind. The cheerful design makes it easier to encourage children to take medicine by inhalation**

 **It can be used by the whole family thanks to two mask sizes**

 **The elephant's trunk, in addition to its aesthetic qualities, serves as a practical holder for the medication container**

 **Nebulizer (medication container) with a convenient scale for applying medicine**

 **Available in 3 colours: grey, blue and pink**

 **Easy to install, use and clean**

 **Quiet (≤ 55 dBA) - no stress for the child**

MULTIFUNCTIONAL NON-CONTACT THERMOMETER

INTENDED USE:

The product is designed to measure the body temperature of children and adults. It does not require direct body contact. It also has a surface temperature measurement function. For home or clinical use.

PRODUCT CHARACTERISTICS:

- measuring distance 3-5 cm
- temperature calibration possible
- possibility to change the temperature scale from °C to °F
- low battery indicator
- automatic power-off after 15 seconds of inactivity
- 24-month warranty
- possibility to set alarm value
- setting on/off beep sound

PACKAGE CONTENTS:

- measuring device
- mini screwdriver + 2 x screws
- AAA battery 1.5 V x 2 pcs
- user manual

 **Memory for 99 measurements, automatic data saving**

 **Precise measurement**

 **Colour LCD display indicating temperature level (green, orange, red)**

 **2 measurement modes: body, surface**

 **Particularly convenient for measuring temperature while the child is asleep, as well as anywhere else where distance and hygiene are important**

 **Quick operation - measurement is a matter of seconds**

 **Ergonomic shape facilitates a firm grip**

BATTERY-OPERATED NASAL ASPIRATOR

INTENDED USE:

The product is designed to remove nasal discharge in order to clear congestion and make it easier to breathe. A valuable tool in the treatment of upper respiratory tract infections. Regular extraction of excess nasal mucus helps maintain hygiene and prevents the spread of infection.

PRODUCT CHARACTERISTICS:

- the design of the product allows it to be positioned in an upright position
- quiet operation, no stress for the child
- no additional filters required
- safe to use
- waterproof

PACKAGE CONTENTS:

- aspirator
- silicone tips x 2 pcs (for a child and an adult)
- spare gaskets x 2 pcs
- battery type AA x 2 pcs
- user manual

 *Perfect for removing nasal congestion in children, disabled people and the elderly*

 *Two silicone tips for children and adults*

 *Convenient Start / Stop button*

 *The safe shape of the tip prevents the aspirator from being inserted too deeply and does not cause irritation*

 *Facilitates breathing, eating and sleeping*

 *Perfect for both home and travel use*

 *Quick, effective operation*

 *Easy to keep clean and empty the collection cup*

 *The ergonomic design ensures a secure grip and prevents the device from being knocked out of your hand during use*

ULTRASONIC AIR HUMIDIFIER

INTENDED USE:

Ensures the proper humidity level. Eliminates static electricity, freshens the air, precipitates pollution particles. Regular use has a positive impact on skin condition and concentration, prevents dryness of eye mucosa, respiratory tract and throat diseases. Improves sleep quality. It works well in both summer and winter - air-conditioned or heated rooms have very dry air.

PRODUCT CHARACTERISTICS:

- the generator stimulates an ultrasonic membrane that breaks down the water molecules in the tank into water vapor
- dedicated for rooms up to 20 m²
- power: 25 W
- easy to clean
- safe to use

PACKAGE CONTENTS:

- air humidifier
- user manual

- Quiet operation with a noise level of ≤ 40 dB is perfect for maintaining adequate humidity while sleeping
- Thanks to the multicolour / 7-color LED backlighting of the water tank, the device can be used as a night lamp
- Perfectly refreshes and eliminates static charges
- Low power consumption, low environmental impact
- Extremely efficient - operates up to 8,5 hours on one water tank
- Intuitive operation

- Automatically turns off when the tank is empty (water used)
- Lightweight
- Perfect for home, office or workplace
- Adjustable vapor level
- Large tank capacity of 2,6 liters

ELECTRIC SONIC TOOTHBRUSH WITH GLASS CUP DEPAN

INTENDED USE:

The Sonic toothbrush is used to clean and whiten teeth, massage gums and keep the mouth healthy. This product is intended for individual use only.

PRODUCT CHARACTERISTICS:

- ergonomic shape facilitates a firm grip
- the toothbrush is designed to be positioned upright
- approximately 37 000 oscillations per minute
- quiet operation
- set includes replacement Ultra-Soft Sensitive tips x 2 pcs
- easy to clean
- safe to use
- IPX7 waterproof rating

PACKAGE CONTENTS:

- sonic toothbrush x 1 pc.
- replacement toothbrush heads (tips) x 2 pcs
- travel box for replacement brush heads
- charger
- glass cup
- USB connector
- plug
- user manual

 *It has a dual-purpose glass cup that serves as a charger and a water cup for mouthwash*

 *The Sonic toothbrush removes up to 8 times more contamination than a manual toothbrush, provides more effective protection against tooth decay*

 *5 modes of operation: cleaning, whitening, kids, gentle brushing and gum massage*

 *Every 30 seconds it signals when it's time to change the teeth areas*

 *Perfect for people with sensitive teeth and gums, as well as those wearing braces, crowns, bridges or implants*

 *The completed brushing signal helps children develop a good brushing habit*

 *Using sonic technology, plaque removal is easier and safer for your enamel and gums*

 *Flashing LED indicates low battery*

 *It can be charged on journeys - in the car, with a computer, power bank and other mobile devices using a USB connection*

 *The modern, elegant design makes the product a perfect gift for even very demanding users*

 *Easy to use toothbrush*

MINI SONIC TOOTHBRUSH

INTENDED USE:

A sonic toothbrush is used to clean teeth and keep the mouth healthy. This product is intended for individual use only.

PRODUCT CHARACTERISTICS:

- ergonomic shape facilitates a firm grip
- the toothbrush is designed to be positioned upright
- 20 000 oscillations per minute
- quiet operation
- powered by AAA battery
- the set includes 2 interchangeable tips
- available in two designs
- easy to clean
- safe to use
- waterproof

PACKAGE CONTENTS:

- sonic toothbrush x 1 pc.
- replacement toothbrush heads (tips) x 2 pcs
- protective cap (case)
- AAA battery x 1 pc.
- user manual

 *The Sonic toothbrush removes up to 8 times more contamination than a manual toothbrush, provides more effective protection against tooth decay*

 *The practical, closing case protects the toothbrush and keeps it secure during transport*

 *Its small size makes it ideal for travel, work, school and home*

 *It does not require much manual skill, thoroughly cleans a child's teeth*

 *Colourful graphics encourage children to use the toothbrush*

 *User-friendly, no charging required*

DENTAL FLOSS

INTENDED USE:

Dental floss used to remove plaque and food debris from areas between the teeth.
Cleans areas a toothbrush cannot reach.

PRODUCT CHARACTERISTICS:

- available in size 50 m
- made of braided nylon fibers

PACKAGE CONTENTS:

- floss - 50 m
- user manual

-  *Helps maintain proper oral hygiene*
-  *Refreshing mint scent*
-  *Everyday use prevents bad breath*

-  *The floss is waxed, making it easy to insert it into areas between the teeth*
-  *Protects against tooth decay and gum problems*
-  *Ideal for cleaning braces, bridges and areas between the teeth*

MANUAL NASAL ASPIRATOR

INTENDED USE:

The product is designed to remove excess nasal discharge in order to clear congestion and make it easier to breathe. A valuable tool in the treatment of upper respiratory tract infections. Regular extraction of excess nasal mucus helps maintain hygiene and prevents the spread of infection.

PRODUCT CHARACTERISTICS:

- quiet operation, no stress for the child
- protects the nasal mucosa of infants and children
- easy to use
- waterproof
- reusable
- works well at home or while traveling

PACKAGE CONTENTS:

- aspirator
- replaceable filters x 4 pcs
- user manual

 *Perfect for removing nasal congestion in children, disabled people and the elderly*

 *Easy to keep clean and empty the collection cup*

 *Facilitates breathing, eating and sleeping*

 *The safe shape of the tip prevents the aspirator from being inserted too deeply and does not cause irritation*

 *4 replaceable, fully hygienic filters perfectly absorb discharge*

 *User-friendly silicone tube with ergonomic mouthpiece*

SOFT-TIPPED MEDICAL BULB SYRINGE

INTENDED USE:

The product is designed for use when suffering from upper respiratory tract infections and ear infections. Helps remove excess nasal discharge to make breathing easier and also removes water and wax buildups from the ear. A valuable tool in the prevention and treatment of upper respiratory tract infections and ear infections.

PRODUCT CHARACTERISTICS:

- available in three sizes:
2 (30 ml), 7 (80 ml), 9 (135 ml)
- easy to use
- no additional filters required
- waterproof

PACKAGE CONTENTS:

- soft-tipped medical bulb syringe
- product label

-  *Perfect for removing nasal discharge in children, disabled people and the elderly*
-  *Premium quality product due to an unparalleled smooth finish*
-  *Safe to use*
-  *Extra soft tip, that is nice to the touch, prevents possible irritation of the nose or ear areas*

-  *Easy to empty and clean*
-  *No stress for the child*
-  *Allows you to quickly remove discharge from the nose or ear*
-  *Size 2 and 7 for infants and children, size 9 for adults*

ANTI-LICE HAIR BANDS

INTENDED USE:

The product is intended for children and adults in order to prevent lice infestation. It is not a treatment for lice.

PRODUCT CHARACTERISTICS:

- for external use only
- pesticide-free
- non-toxic

PACKAGE CONTENTS:

- hair bands x 4 pcs

 The hair bands are soaked in a unique composition of 100% natural essential oils

 Perfect for kindergartens, schools, camps, excursions, sports activities

 The hair band provides protection for 5 to 7 days

 Each band is packed separately

 No skin irritation

 The hair is protected by a scent emitted by the bands that repels parasites, but is pleasant to humans

 Effective and discreet protection against lice

 The product is designed for children from the age of one and adults

 Each pack contains 4 hair bands in 4 different colours

DISPOSABLE INCONTINENCE PADS

INTENDED USE:

Hygiene pads designed for older people suffering from urinary incontinence, postpartum women and children. They provide protection during dressing changes, patient care procedures and diaper changes. The incontinence pads are very useful during travel and in hospital - they allow diapers/sheets to be changed without unpleasant surprises. Apart from their main purpose, they are also very good as pads under bedding sheets protecting the mattress from contamination and can serve as a hygienic product for animals.

PRODUCT CHARACTERISTICS:

- available in three sizes:
90 x 60 cm
60 x 60 cm
40 x 60 cm

PACKAGE CONTENTS:

- disposable incontinence pads
- product label

-  *Thin but highly absorbent*
-  *Perfect for home, travel and medical facilities*
-  *The surface of the incontinence pads stays dry and clean thanks to the absorbent layer*
-  *Nice to the touch, no skin irritation*

-  *Special diamond-shaped embossing prevents fluid from accumulating in one location*
-  *Impermeable foil guarantees comfort of use - prevents leakage*
-  *Pads placed on the bed do not move due to the anti-slip PE foil*
-  *5 layers provide effective protection*

NURSING PADS

INTENDED USE:

Ultra absorbent nursing pads designed for breastfeeding mothers. They keep your nipples dry, absorb excess milk, and prevent underwear and clothes from getting dirty.

PRODUCT CHARACTERISTICS:

- packaged in a convenient two-pack plastic bag
- changing the pad at least once a day is recommended
- safe to use
- disposable product

PACKAGE CONTENTS:

- nursing pads: 60 pcs (30 plastic bags with 2 pads each)
- product label

-  *Made of soft fiber, so it does not cause skin irritation*
-  *Thin but highly absorbent*
-  *They have a self-adhesive layer which prevents the pad from moving in the bra, the adhesive does not leave a trace on the underwear*

-  *Comfort and hygiene when breastfeeding*
-  *Ideal for normal and special breastfeeding bras*
-  *Milk-proof backing prevents leaking*

ADHESIVE FABRIC TAPE

INTENDED USE:

The product is intended for external use
- it is used to fix dressings, drains, tubes.
Perfect also for marking and labeling
medical devices, tubes, etc.

PRODUCT CHARACTERISTICS:

- spool with ring for protection against dirt
- dimensions: 5 m x 2.5 cm
- disposable product
- does not stretch in any direction

PACKAGE CONTENTS:

- fabric adhesive tape on a spool

-  *Wide range of applications*
-  *Water resistant*
-  *Ensures freedom of movement*
-  *Easy sectioning without scissors*

-  *Provides adequate air circulation to promote wound healing*
-  *Safe non-irritating acrylic adhesive*
-  *100% cotton*
-  *Strong, durable with very good adhesion*

NON-WOVEN COHESIVE BANDAGE

INTENDED USE:

The product is designed to support dressings and immobilize limbs after injury: for stabilizing joints, applying dressings for dislocations and fractures. The bandage is flexible and has cohesive properties.

PRODUCT CHARACTERISTICS:

- no wrinkling, no curling
- stretchy, does not restrict movement, does not restrict blood circulation
- breathable material does not cause skin irritation, accelerates the healing of wounds
- durable, the dressing can be corrected without losing the cohesive properties

PACKAGE CONTENTS:

- cohesive bandage on a spool
- product label

-  *Adheres to itself, not to skin, hair or clothes*
-  *No additional fasteners required*
-  *For use in areas where a traditional bandage might slip*
-  *The bandage is easy to use even without help from another person*

-  *No scissors required, just tear a piece off, no fraying*
-  *Ideal when travelling, on excursions and everyday use*
-  *Indispensable in an emergency, wounds can be dressed quickly*
-  *Available in four sizes and different colours*

GAUZE PADS FOR DISINFECTION

INTENDED USE:

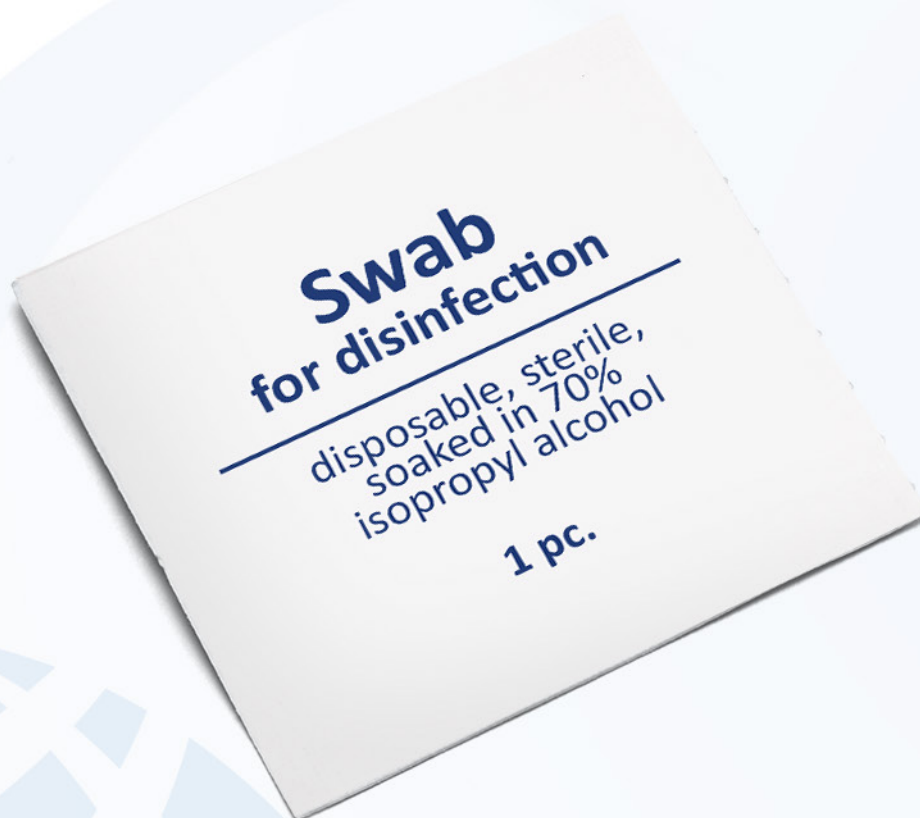

The product is designed to disinfect medical devices.
Disposable product.

PRODUCT CHARACTERISTICS:

- sterile
- soaked with 70% isopropyl alcohol
- packed directly in airtight aluminum sachets so they do not dry out

PACKAGE CONTENTS:

- 10 or 100 gauze pads
- user manual

 *Gauze pads made of high-quality non-woven spunlace fabric with the structure of a delicate material*

 *Isopropyl alcohol, which is used for soaking gauze pads, has disinfectant, fungicidal and bactericidal properties*

 *Easy to use, each gauze pad is packed in a separate sachet*

HYDROCOLLOID BLISTER ADHESIVE PATCHES

INTENDED USE:

The product facilitates the healing of blisters. The patches protect against rubbing and provide pain relief. They provide a protective barrier against external factors – water, dirt and bacteria, the polyurethane coating protects against moisture penetration and the hydrocolloid dressing absorbs secretions that form in the bladder.

PRODUCT CHARACTERISTICS:

- disposable product
- intended for external use
- sterile product

PACKAGE CONTENTS:

- 7 patches in separate sachets in three sizes:
2 pcs size 4,4 cm x 6,9 cm
3 pcs size 2 cm x 6 cm
2 pcs size 3 cm x 6 cm
- product label

- A thick layer cushions the pressure exerted on the blister providing immediate pain relief
- Polyurethane coating protects against moisture penetration
- Beige color to make the patch less noticeable during use
- One set contains 7 patches
- Ensures the quick healing of blisters

- 3 sizes for a better fit
- Comfortable, hygienic use - each patch comes in a separate sachet
- Elastic, so it fits perfectly to the skin
- Ideal for active people

SET OF WATERPROOF PLASTERS

INTENDED USE:

The plasters protect the wound from bacteria, dirt and water. Changing the plaster daily for a new one is recommended.

PRODUCT CHARACTERISTICS:

- disposable product
- intended for external use
- to be applied to a cleaned wound

PACKAGE CONTENTS:

- 12 plasters in two sizes:
 - 4 pcs size 7,2 cm x 2,5 cm
 - 8 pcs size 7,2 cm x 1,9 cm
- product label

-  *Comfort and hygiene*
-  *Microperforation allows the skin to breathe*
-  *Beige color to make the patch less noticeable during use*
-  *Highly absorbent dressing absorbs leakage from injured skin*

-  *Hypoallergenic glue does not irritate the skin*
-  *Flexible, so they adhere perfectly to the body tightly protecting the wound*
-  *Waterproof*

MEDICAL AIR CUSHION

INTENDED USE:

Prevents pressure sores and provides relief from existing sores. Perfect for women in the postpartum period. Relieves pain after hemorrhoid surgery. Facilitates the healing of wounds. It works well for people with a sedentary lifestyle.

PRODUCT CHARACTERISTICS:

- reusable
- for external use only

PACKAGE CONTENTS:

- cushion x 1 pc.
- pump x 1 pc.
- product label

 *The opening in the middle of the cushion helps relieve pressure on the painful area and prevents it from getting worse*

 *Helps to improve blood circulation, relaxes muscles and reduces pain*

 *For therapeutic, rehabilitative and preventive applications*

 *For home or clinical use*

 *Made of soft plush, available in several colours*

KINESIOLOGY TAPE

INTENDED USE:

The product is designed to support the treatment of injuries and pain, reduce inflammation, hematomas and lymphedema. In addition, it supports muscle function and protects them from overexertion, stabilizes joints, and prevents cramps.

PRODUCT CHARACTERISTICS:

- tape wound on a spool
- dimensions: 5 cm x 5 m
- stretches in both directions up to 170%
- resembles human skin in weight and thickness
- breathable
- waterproof
- latex free

PACKAGE CONTENTS:

- kinesiology tape on a spool
- user manual

-  *Protection, healing, comfort, regeneration*
-  *Used by professional athletes as well as amateurs, it is also widely used in orthopedics and rehabilitation*
-  *Easy to cut, does not fray*
-  *High quality material*

-  *Thanks to hypoallergenic adhesive, it does not cause skin irritation, perfectly adheres to the body fulfilling its purpose*
-  *Available in various colours*
-  *Perfect for sore muscles, tendons and ligaments*

STIFF KINESIOLOGY TAPE

INTENDED USE:

A product designed to prevent and support the treatment of injuries. Restricts joint mobility. It can be used in place of a stabilizer or orthosis.

PRODUCT CHARACTERISTICS:

- tape wound on a spool
- dimensions: 2,5 cm x 9,14 m; 3,8 cm x 9,14 m; 5 cm x 9,14 m
- breathable and waterproof
- made of 100% cotton, does not cause allergies or skin irritations
- latex free

PACKAGE CONTENTS:

- kinesiology tape on a spool
- product label

-  *Protection, healing, comfort, full range of movement*
-  *Used by professional athletes as well as amateurs, it is also widely used in orthopedics and rehabilitation*
-  *It does not stretch, thus effectively immobilizes the specific joint*
-  *Easy to cut, does not fray*

-  *Thanks to hypoallergenic adhesive, it does not cause skin irritation, perfectly adheres to the body fulfilling its purpose*
-  *High tear resistance*
-  *Perfect for sore muscles, tendons and ligaments*

OWL/TURTLE HOT & COLD GEL COMPRESS FOR KIDS

INTENDED USE:

Reusable product designed to apply hot or cold therapy.

Cold therapy:

- relieves pain by locally lowering body temperature
- used for bruises, insect bites, dislocations, swellings, burns, sports injuries, headaches and fever.

Helpful in post-operative convalescence

Hot therapy:

- brings relief by local diastolic effect (warming up the body)
- used for contractures, rheumatic pains, muscle and tendon injuries (unless cold therapy has been indicated)

PRODUCT CHARACTERISTICS:

- safe, non-toxic gel in a sealed pouch heats/cools quickly
- the compress gives off the accumulated cold or heat for a long time
- the compress remains flexible even after freezing

PACKAGE CONTENTS:

- gel compress
- product label

- 🌐 *A colourful compress designs especially for kids*
- 🌐 *The flexibility and shape of the compress means that it can be applied to different parts of the body*
- 🌐 *The compress can be heated in a microwave*

- 🌐 *Helps distract the child from the pain*
- 🌐 *Indispensable in situations where emergency intervention is required*
- 🌐 *Perfect for home and travel*

HOT & COLD GEL COMPRESS 10 x 10 cm / 10 x 26,50 cm

INTENDED USE:

Reusable product designed to apply hot or cold therapy.

Cold therapy:

- relieves pain by locally lowering body temperature
- used for bruises, swelling, neuralgic pains, sports injuries, burns, inflammations, dislocations and post-traumatic pains. It works well for non-extensive dermatitis and insect bites. Helpful in post-operative convalescence

Hot therapy:

- brings relief by local diastolic effect (warming up the body). Stimulates blood flow, helps reduce discomfort
- used for contractures, rheumatic pains, muscular pains, menstrual pains, myositis and rheumatoid tendonitis (unless cold therapy has been indicated)

PRODUCT CHARACTERISTICS:

- safe, non-toxic gel in a sealed pouch heats/cools quickly
- the compress gives off the accumulated cold or heat for a long time
- coloured gel gives the compress an interesting appearance
- the compress retains flexibility even after freezing

PACKAGE CONTENTS:

- gel compress
- velvet pouch
- product label

 *A practical, soft pouch insulates the compress so it does not come into direct contact with the skin*

 *The flexibility and shape of the compress means that it can be applied to different parts of the body*

 *The compress can be heated in a microwave*

 *Indispensable in situations where emergency intervention is required*

 *Perfect for travel, home or work*

HOT & COLD GEL COMPRESS 18 x 29,5 cm

INTENDED USE:

Reusable product designed to apply hot or cold therapy.

Cold therapy:

- relieves pain by locally lowering body temperature
- used for bruises, swelling, neuralgic pains, sports injuries, burns, inflammations, dislocations and post-traumatic pains. It works well for non-extensive dermatitis and insect bites. Helpful in post-operative convalescence

Hot therapy:

- brings relief by local diastolic effect (warming up the body). Stimulates blood flow, helps reduce discomfort
- used for contractures, rheumatic pains, muscular pains, menstrual pains, myositis and rheumatoid tendonitis (unless cold therapy has been indicated)

PRODUCT CHARACTERISTICS:

- safe, non-toxic gel in a sealed nylon pouch heats/cools quickly
- the compress gives off the accumulated cold or heat for a long time
- the compress retains flexibility even after freezing

PACKAGE CONTENTS:

- gel compress
- product label

-  *The flexibility and shape of the compress means that it can be applied to different parts of the body*
-  *Indispensable in situations where emergency intervention is required*

-  *Perfect for travel, home or work*
-  *The compress can be heated in a microwave*

HOT & COLD GEL COMPRESS - KNEE COMPRESS

INTENDED USE:

Reusable product designed to apply hot or cold therapy. Indispensable for cartilage, joint capsule and meniscus injuries.

Cold therapy:

- relieves pain by locally lowering body temperature
- used for bruises, swelling, neuralgic pains, sports injuries, burns, dislocations and strains.

Helpful in post-operative convalescence

Hot therapy:

- brings relief by local diastolic effect (warming up the body)
- used for contractures, rheumatic pains, muscular pains, myositis and rheumatoid tendonitis (unless cold therapy has been indicated)

PRODUCT CHARACTERISTICS:

- safe, non-toxic gel in a sealed pouch heats/cools quickly
- flexible gel balls give off the accumulated cold or heat for a long time
- gel in the form of balls gives the compress an interesting appearance
- the compress retains flexibility even after freezing

PACKAGE CONTENTS:

- gel compress
- product label

 The elastic band has a Velcro fastener which prevents the compress from moving and ensures that it fits any knee size

 The flexibility and shape of the compress means that it can be applied to the knee and different parts of the body

 Perfect for home, travel and work

 The ergonomic design of the compress does not restrict movement while walking

 Indispensable in situations where emergency intervention is required

 The compress can be heated in a microwave

HOT & COLD GEL COMPRESS - ANTIMIGRAINE COMPRESS

INTENDED USE:

Reusable product designed to apply hot or cold therapy.

Cold therapy:

- relieves pain by locally lowering body temperature
- used primarily for migraines, bruises, swelling, neuralgic pains, sports injuries, burns, heat stroke or fever
- makes you feel better after a hard day at work

Hot therapy:

- brings relief by local diastolic effect (warming up the body)
- used for contractures, sinus pain, relieves muscle tension in the forehead and temples
- increases local blood flow, has a calming and relaxing effect

PRODUCT CHARACTERISTICS:

- safe, non-toxic gel in a sealed pouch heats/cools quickly
- flexible gel balls give off the accumulated cold or heat for a long time
- gel in the form of balls gives the compress an interesting appearance
- the compress retains flexibility even after freezing

PACKAGE CONTENTS:

- gel compress
- product label

 The elastic band has a Velcro fastener which prevents the compress from moving and ensures that it fits any head size

 Indispensable in situations where emergency intervention is required

 The compress can be heated in a microwave

HOT & COLD GEL COMPRESS - UNIVERSAL COMPRESS 27 x 19 cm

INTENDED USE:

Reusable product designed to apply hot or cold therapy.

Cold therapy:

- relieves pain by locally lowering body temperature
- used for bruises, swelling, neuralgic pains, sports injuries, burns, inflammations, dislocations and post-traumatic pains. It works well for non-extensive dermatitis and insect bites. Helpful in post-operative convalescence

Hot therapy:

- brings relief by local diastolic effect (warming up the body). Stimulates blood flow, helps reduce discomfort
- used for pain in the: back, shoulder and thigh, contractures, rheumatic pains, muscular pains, menstrual pains, myositis and rheumatoid tendonitis (unless cold therapy has been indicated)

PRODUCT CHARACTERISTICS:

- safe, non-toxic gel in a sealed pouch heats/cools quickly
- flexible gel balls give off the accumulated cold or heat for a long time
- gel in the form of balls gives the compress an interesting appearance
- the compress retains flexibility even after freezing

PACKAGE CONTENTS:

- gel compress
- product label

-  *The elastic band has a Velcro fastener which prevents the compress from moving*
-  *The flexibility and shape of the compress means that it can be applied to the lumbar area, abdomen, thigh, shoulder and other parts of the body*

-  *Perfect for work, travel or home use*
-  *Indispensable in situations where emergency intervention is required*
-  *The compress can be heated in a microwave*

PILL ORGANIZER ROUND

INTENDED USE:

Designed to store pills in tablet or capsule form.
Facilitates correct medication dosing throughout the week.

PRODUCT CHARACTERISTICS:

- it does not take up much space, looks attractive
- compartments are made of durable material

PACKAGE CONTENTS:

- pill organizer
- product label

-  *The organizer includes compartments for 7 days of the week. Each compartment is split into 4 times of day: morning, noon, afternoon, evening*
-  *The compartments are completely removable from the organizer, so you can carry a full day's dosage of medication with you*
-  *Particularly useful for people who regularly take medication*

-  *Supports the regular taking of medication, which is the basis for effective treatment*
-  *Makes it easy to check if the medication has been taken*
-  *Easy to fill the organizer with medication*
-  *Clip closures prevent the medication from falling out*

PILL ORGANIZER STANDING

INTENDED USE:

Designed to store pills in tablet or capsule form.
Facilitates correct medication dosing throughout the week.

PRODUCT CHARACTERISTICS:

- it does not take up much space, looks attractive

-  *The compartments are completely removable from the organizer, so you can carry a full day's dosage of medication with you*
-  *Supports the regular taking of medication, which is the basis for effective treatment*

-  *Easy to fill the organizer with medication*
-  *Particularly useful for people who regularly take medication*
-  *Sliding closures prevent the medication from falling out*
-  *Makes it easy to check if the medication has been taken*

HOT WATER BOTTLE 2 L

INTENDED USE:

A reusable product designed to help relieve pain and tense muscles by heat therapy.

Hot therapy:

- brings relief by local diastolic effect (warming up the body)
- used for contractures, myositis and joint pains
- has a positive effect on the nervous system

PRODUCT CHARACTERISTICS:

- a hot water bottle for filling with hot, but not boiling water
- capacity 2000 ml
- heats up quickly
- pouch for the hot water bottle in many designs, colours and different materials (fleece, polyester, velour)
- the hot water bottle is made of natural rubber

PACKAGE CONTENTS:

- hot water bottle in a pouch or without a pouch
- product label

- 🌐 *Used for prophylactic and therapeutic purposes for warming up and pain relief*
- 🌐 *Excellent for warming limbs with poor blood circulation*
- 🌐 *Indispensable for menstrual pains*
- 🌐 *Sealed and resistant to elevated temperatures*

- 🌐 *Comfortable application on different parts of the body*
- 🌐 *Relaxing and calming*
- 🌐 *The large capacity of 2l ensures that the accumulated stored heat is given off for a long time*

THERMOMETER WITH A SHAKEDOWN AID

INTENDED USE:

The product is designed to measure the body temperature of children and adults. For home or clinical use.

PRODUCT CHARACTERISTICS:

- temperature measurement range: 35.0°C - 42.0°C
- measurement methods: measurement orally / axillary / vaginally / rectally
- the thermometer has a glass case and can be disinfected
- conventional thermometer containing an alloy of metals: gallium, indium and tin
- mercury-free
- non-toxic
- no batteries required
- waterproof

PACKAGE CONTENTS:

- measuring device
- user manual

 *Safe for humans and the environment - contains non-toxic metal alloys instead of mercury*

 *Comfortable "shakedown aid" makes it easier to shake the measuring liquid*

 *Easy to clean and disinfect*

 *Nickel-free, so it can be used by users with allergies*

 *Measurement time 4 - 5 minutes*

 *Precise measurement*

HCG PREGNANCY TEST

INTENDED USE:

Early pregnancy diagnosis at home. The concentration of chorionic gonadotropin hormone (HCG) in non-pregnant women is usually 50 mIU/mL. As pregnancy progresses, its concentration rises to 25 mIU/mL or higher. After missed menstruation, the urinary HCG concentration is about 100 mIU/ml, reaching a maximum of 100 000 - 200 000 mIU/ml. This hormone is produced during pregnancy by the embryo and then by the placenta. A pregnancy test can detect chorionic gonadotropin in urine. The test line contains antibodies that react with the hormone. If the HCG hormone reaches a membrane sensitivity of 10 mIU/mL or higher, a coloured line appears on the test. The absence of a colored line suggests a negative result.

PRODUCT CHARACTERISTICS:

- product for self-testing
- disposable
- for external use only

PACKAGE CONTENTS:

- sachet with 1 test cassette and moisture absorber
- 1 urine container
- 1 pipette/dropper
- user manual

-  Quick results within 5 minutes
-  High accuracy >99%
-  Product certified in the Polish Notified Body
-  Designed for self-testing

-  Easy to use - just 2-3 drops of urine are enough
-  Result is easy to interpret
-  High sensitivity of 10 mIU/ml allows the detection of pregnancy as early as 5-7 days after conception

DRUG TEST

INTENDED USE:

The urine drug test is a panel test that detects 7 dangerous substances in the body: amphetamine, ecstasy (MDMA), hashish (THC), heroin, cocaine, marijuana and morphine. Assists in the diagnosis of substance abuse and in the monitoring of therapeutic activities related to drug addiction treatment.

PRODUCT CHARACTERISTICS:

- the test is based on an immunochromatographic method for the qualitative detection of many drugs and their metabolites in urine

PACKAGE CONTENTS:

- 1 sachet with the test and moisture absorber
- 1 urine container
- user manual

-  **Quick and accurate**
-  **Quick result within 5 minutes**
-  **Detection:**
 - heroin, morphine up to 7-72 hours after ingestion
 - cocaine within 48 hours of ingestion
 - amphetamines, ecstasy within 1-3 days of use
 - hashish, marijuana within 3-10 days of use
-  **Easy to use**

Filtering half mask HELBO Neoprene Mask FFP1 NR

INTENDED USE:

The HELBO FFP1 NR Neoprene Mask protects against air pollutants in the form of dust, fumes and mist, provided that their concentration in the air does not exceed 4 x TLV (threshold limit value). The mask is made of flexible and durable neoprene. The product fits tightly to the shape of the face and the circumference of the head. It has two exhalation valves that effectively exhaust moisture, exhaled air and carbon dioxide. The non-woven fabric used in HELBO replaceable filters prevents contaminants from entering the lungs. The filter also stops harmful dust (PM 2,5 and PM 10).

PRODUCT CHARACTERISTICS:

- perfect for everyday use
(on strolls, on the way to work or school)
as well as for outdoor activities
(for runners, cyclists, skiers and Nordic Walking fans)

PACKAGE CONTENTS:

- filtering half mask
- Helbo replaceable filter x 1 pc.
- user manual

- Tested by the Central Institute for Labour Protection - National Research Institute
- EC type examination certificate
- Confirmed product conformity with EN 149:2001+A1:2009 requirements
- Aluminum nose piece allows for a snug fit
- A long Velcro strap allows for easy adjustment

- Comfortable breathing due to large air openings
- Two valves make it easy to exhale
- Full protection is provided by a high-quality replaceable filter
- Replaceable filters can be purchased separately in case of wear
- Available in various colours

Filtering half mask HELBO Neoprene Mask SPORT FFP1 NR

INTENDED USE:

The HELBO SPORT FFP1 NR filtering half mask protects against air pollutants in the form of dust, fumes and mist, provided that their concentration in the air does not exceed 4 x TLV (threshold limit value). The half mask is made of flexible, durable neoprene enhanced with hex-sport material which ensures comfortable breathing. The product fits tightly to the shape of the face and the circumference of the head. It has two exhalation valves that effectively exhaust moisture, exhaled air and carbon dioxide. The non-woven fabric used in HELBO replaceable filters prevents contaminants from entering the lungs. The filter also stops harmful dust (PM 2,5 and PM 10).

PRODUCT CHARACTERISTICS:

- designed to protect people who like to spend their time actively outdoors, perfect for cyclists, runners, fans of Nordic walking, street workout and other sports

PACKAGE CONTENTS:

- filtering half mask
- Helbo replaceable filter x 1 pc.
- user manual

 *Tested by the Central Institute for Labour Protection - National Research Institute*

 *EC type examination certificate*

 *Confirmed product conformity with EN 149:2001+A1:2009 requirements*

 *Aluminum nose piece allows for a snug fit*

 *Hex-sport material for breathability*

 *A long, strong Velcro strap allows adjustment and prevents the mask from moving*

 *Durable neoprene performs well under intense exertion*

 *Two valves make it easy to exhale*

 *Full protection is provided by a high-quality replaceable filter*

 *Replaceable filters can be purchased separately in case of wear*

 *Available in various colours*

MEDICAL HELBO MASK, 3-PLY, NONWOVEN, SURGICAL-TYPE MASK

INTENDED USE:

HELBO medical mask - a 3-ply, non-woven, surgical type mask is designed to protect against infectious agents. As a medical device, the Type II medical mask is intended for medical personnel in order to protect patients during procedures in medical facilities. It is also perfect for everyday use in places where you are required to cover your mouth and nose (whilst shopping, working or walking).

PRODUCT CHARACTERISTICS:

- disposable product for external use
- filtration efficiency $\geq 98\%$
- pressure differential $<40 \text{ Pa/cm}^2$
- microbiological purity $\leq 30 \text{ cfu/g}$

PACKAGE CONTENTS:

- 50 x 1 mask
- 10 x 5 masks

 Thanks to its design it perfectly fits the shape of the face

 Packaged in a hygienic, aesthetic blister pack of 1 or 5 pieces

 Nose piece insert for a snug fit and effective filtration

 High filtration efficiency BFE $\geq 98\%$

 Elasticated ear loops provide comfort and prevent the effect of protruding ears

 Medical mask, type II according to EN 14683

PULSE OXIMETER DEPAN MODEL M130

INTENDED USE:

Product designed for non-invasive blood saturation and heart rate measurement. With its small size, low power consumption and user-friendly interface, the finger pulse oximeter is a perfect device for monitoring oxygen saturation levels in hemoglobin. Simply insert your finger into the photoelectric sensor for a quick measurement that can be read off the OLED screen.

PRODUCT CHARACTERISTICS:

- pulse oximeter for people with respiratory diseases, heart diseases, hypertension or diabetes
- pulse oximeter monitoring is also recommended for people who work or play sports at high altitudes and for pregnant women

PACKAGE CONTENTS:

- finger pulse oximeter DEPAN M130
- neck lanyard
- AAA alkaline battery 1,5V x 2 pcs
- user manual

- ⊗ *Battery level indicator protects against the device suddenly turning off*
- ⊗ *Easy to use*
- ⊗ *Easy-to-read large colour display*
- ⊗ *Low power consumption, up to 50 hours of battery life*
- ⊗ *Auto power-off after 8 seconds of inactivity*

- ⊗ *Quick measurement of blood saturation as a percentage - the result appears automatically within seconds*
- ⊗ *Compact size*
- ⊗ *Display of measurement results possible from 4 sides (upwards, downwards, right side, left side)*
- ⊗ *Graphic representation of the heart rate*

PULSE OXIMETER DEPAN MODEL YK-81C

INTENDED USE:

Product designed for non-invasive blood saturation and heart rate measurement. With its small size, low power consumption and user-friendly interface, the finger pulse oximeter is a perfect device for monitoring oxygen saturation levels in hemoglobin. Simply insert your finger into the photoelectric sensor for a quick measurement that can be read off the OLED screen.

PRODUCT CHARACTERISTICS:

- pulse oximeter for people with respiratory diseases, heart diseases, hypertension or diabetes
- pulse oximeter monitoring is also recommended for people who work or play sports at high altitudes and for pregnant women

PACKAGE CONTENTS:

- finger pulse oximeter DEPAN YK-81C
- neck lanyard
- AAA alkaline battery 1,5V x 2 pcs
- user manual

- 🌐 *Battery level indicator protects against the device suddenly turning off*
- 🌐 *Easy to use*
- 🌐 *Easy-to-read large colour display*
- 🌐 *Low power consumption, up to 50 hours of battery life*
- 🌐 *Compact size*
- 🌐 *Auto power-off after 8 seconds of inactivity*

- 🌐 *Quick measurement of blood saturation as a percentage - the result appears automatically within seconds*
- 🌐 *Display of measurement results possible from 4 sides (upwards, downwards, right side, left side)*
- 🌐 *Graphic representation of the heart rate*
- 🌐 *Alarm function*

OXYGEN CONCENTRATOR MODEL: OLV-5A

INTENDED USE:

A device designed to deliver air with increased oxygen content to patients requiring oxygen therapy. The concentrator can be used by people suffering from hypoxia of different degrees and origin, by adults, the elderly and pregnant women. The device also aids in the treatment of cardiovascular, cerebrovascular, respiratory and pulmonary diseases.

PRODUCT CHARACTERISTICS:

- innovative design, simple operation, stable performance
- production of oxygen by physical methods (the only raw material used by the device is air)
- low operating costs
- the concentrator has a durable, streamlined design for easy cleaning and disinfection
- max. oxygen flow rate - 5 l/min
- oxygen concentration 93% \pm 3%
- has a time measurement function, a timer
- auto power-off feature
- voice-control
- 36-month warranty

PACKAGE CONTENTS:

- device
- power cable
- face masks x 2 pcs
- nasal cannula
- nebulizer + accessories
- humidifier bottle + tube
- Hepa and foam filters
- user manual

-  *Large LCD display clearly shows the operating status of the unit*
-  *The flow meter monitors the flow of emitted oxygen*
-  *Features low oxygen, malfunction and low voltage alarm functions*
-  *Device designed for continuous operation*
-  *For use at home and in medical facilities*
-  *The supplied air is properly humidified by the humidifier cylinder*

-  *HEPA filter and foam filter prevent dirt from entering the unit*
-  *The nebulization function allows medication to be administered in aerosol form*

INHALATION OXYGEN HELTES

INTENDED USE:

Oxygen designed to provide rapid oxygen inhalation at any location. With the cover attached to the can, which also serves as a mask, oxygen application can be done easily and quickly, without the need for additional equipment.

PRODUCT CHARACTERISTICS:

- intended for use by one user - do not share the product with others to avoid cross contamination
- gas volume 12 L
- pressure 12 bar

PACKAGE CONTENTS:

- one package provides approx. 120 inhalations

 *Designed for home and professional use*

 *Helps replenish oxygen deficiency in the body, improves concentration, increases stamina, reduces stress, used to fight fatigue*

 *Lightweight*

 *Comfortable to use*

 *Odourless*

 *Perfect for people with respiratory problems, cardiac insufficiency, suffering from insomnia, having trouble concentrating and also for athletes*
